2. PARTICIPIAL PHRASES (CỤM PHÂN TỪ)

A **participial phrase** is a phrase that starts with a participle functioning as an adjective.

How to form:

Two clauses that share the same subject can be shortened by using the participial phrase to avoid wordiness. Normally is formed from an adverb clause of time, cause, concession, etc.

Steps to reduce an adverb clause to a participial phrase:

- Step 1: Omit the conjunction.
- Step 2: Omit the subject.
- Step 3: Change the Verb to:
 - V-ing if verbs in the two clauses are in the same tense.
 - Having + P2 if the verb is in the past perfect tense.
 - (Being) P2 if the verb is in the passive voice.

Ex: Adverb clause: Because she felt tired, Ms. Hudson refused to work late.

=> Feeling tired, Ms. Hudson refused to work late

Note: we may have the conjunction (such as while, when, before and after) in the Adverb clause of time to make the meaning of the whole sentence clear.

Ex: After I checked his email, I clicked the send button.

=> After checking his email. I clicked the send button.
